- For numismatist collectors and dealers
- For social historians and those with special interests in epigraphy

This volume contains nearly 1600 coins of the 9th-16th centuries from North Africa to Great Syria. The collections included in the catalogue are those of the Heberden Coin Room and the Shamma Collection. Unlike previous SICA volumes, the coins are arranged by dynasty and ruler because of the large number of distinctive types belonging to each dynasty's coinage.
