- This fully illustrated monograph of works showcases the contemporary landscape paintings of artist Szilard Huszank
- Text in English and German

In his paintings, the artist Szilard Huszank (*1980) deals with the possibilities and peculiarities of the landscape as a subject, exploring it through new contexts in refreshing and unusual ways. Enthused by the colour palettes of classic modernism, yet far from parody, he has developed an inimitable canon of colour and a formal vocabulary all his own. Always gliding into abstract solutions, the colours and content demand the eye's attention.

Text in English and German.
