- There is so much to learn from observing nature – from cooperation to what makes a family
  - Text bubbles with fascinating facts on every page!

Animal families are varied and incredible. This book is the latest addition to a much-loved series *Learning From Animals*. In these pages children will explore, through examples, how, even in the wild, families are all different. From extended families to adopted children and unconventional couples.

Ages 6 plus.

**Francesco Faccia** is an award-winning illustrator and comic artist. Faccia trained at the Academy of Fine Arts in Bologna where he specialised in graphic design. Francesco has since then been working in the fields of visual arts and animation. He is also winner of the Lucca Junior 2022 illustration competition. **Tecnoscienza** is a group of authors and educators that for more than 15 years has been involved in the dissemination of science, technology, mathematics, and the environment for numerous institutions, such as museums and companies. Their books, published in more than 20 countries, are designed to stimulate thoughts, actions, and emotions.
