ÆTHERUM—as if fuelled by the divine energy of the ether, the current edition of *The Opéra* paves the way to the secret thoughts, desires, and dreams that lie dormant within every human body. In this kaleidoscope of sensuality, the nudes transcend the human body as a physical shell and tell stories of vulnerability and intimacy, but also of self-empowerment, strength, and beauty.

ÆTHERUM brings together work by established photographic artists and up-and-coming talents. Once again, the specific female perspective on the human body has been accorded just as much importance as a nuanced portrayal that couldn't be further from common stereotypes.
