A photographer stalks a writer after severely transforming and altering her portrait. Like a paparazzo he spies on her and observes her closely and intimately. He captures every single detail of her daily life through his lens while she writes the sci-fi story that is published in this book. However, he especially wants to find out how image manipulation affects her and her psyche, with fatal consequences. Next to the photographer, Dorya Glenn is the main protagonist in the sci-fi story. But who is she? *The Picture of Dorya Glenn* is a collaboration between photographer Filip Naudts and the Dutch-Chinese writer/visual artist Julie O'yang.
