- A stirring photographic tribute to the World Trade Center towers, which were the icons of the New York City skyline

The 72 images of the World Trade Center presented in this book depict a New York we once knew, one we are now working to rebuild. For more than two decades, practically since the Twin Towers were erected, Sonja Bullaty and Angelo Lomeo have been photographing these awesome buildings. The pictures featured here portray the WTC from all directions, starting with views from the east at dawn, and ending with evening views from the west. There are captivating panoramas from Brooklyn, Lower Manhattan, New Jersey, and uptown, taken in all seasons, as well as a section showing the grand Plaza at the centre of the buildings. Together, they create an unforgettable portrait of the Twin Towers.

Introducing this extraordinary collection of photographs, Paul Goldberger's text evokes the Towers and the city they came to symbolize. He recalls how they evolved in the public mind, targets of criticism to beloved American icons. He explains their architectural significance and explores their visceral meaning to New Yorkers. In contrast to books depicting the disaster and the days following it, this photographic memoir will be welcomed by all of us – New Yorkers and visitors alike – who yearn to remember the way the city was.

A portion of the book's proceeds are donated to the Twin Towers Scholarship Program care of Scholarship America.
