Price	£32.50

Timeless Resorts is the first major monograph of the multidisciplinary design practice Stapati, established by Ar.Tony Joseph. This book examines the evolution of 11 captivating hospitality projects, where Stapati's philosophy of creating Timeless Architecture by reinterpreting the vernacular for contemporary living is expounded. The projects spread across India and the Seychelles demonstrate a sensitive understanding of the context and culture, with the site forming the major generator, to develop narratives and experiences which transcend time and place.

Sujith G.S. is an Indian-born architect who is passionate about writing, blogging and architectural photography. He is a regular contributor to various architectural publications and has been a guest jury member for several architectural schools in India. He is presently researching a monologue on the architecture of Laurie Baker. He shares his perspectives on architecture and design through his blog 'Architecture Student's Corner.' Abraham Tharakan is the Founder/Editor for FWD Life magazine. He is a copywriter and art director at various national and international ad agencies and is a consultant for projects related to History, Architecture, Popular Culture and Publishing, and continues to mentor start-ups for innovative design and operations solutions with a focus on technology.
