Tom Nagy

SOLITAIRE: Faces of Antarctica

Text by Belinda Grace Gardner

Text by Kevin G. Rattue

ISBN	9783735608741
Publisher	Kerber
Binding	Hardback
Territory	World excluding Germany, Austria, Switzerland, the US & Canada
Size	255 mm x 340 mm
Pages	96 Pages
Illustrations	42 color
Price	£63.00

- Presents stunning portraits of ephemeral giants
- Truly beautiful and amazing photographs from Antarctica

Two things resonate in Tom Nagy's photographic portraits of icebergs and Antarctic landscapes: the untameable, irrepressible energies of nature and the fragility of its jagged shapes, which are minimalistic and narrative, static and mobile, majestic and delicate all at the same time. Nagy's photographs enable us to experience this ephemeral nature becoming a picture and thus prevent them from vanishing for good. In his portraits of icebergs, they become ephemeral sculptures, which drift in the solitary silence of the Antarctic waters like artworks, to then ultimately dissolve completely. From the perspective of the photographer, the Antarctic landscape encourages us to contemplate the cycle of life and to sense our own impermanence.

Text in English and German.
