**Tor Seidel: In Uncharted Territories** is the foretelling title of the first institutional solo exhibition by German photographer and artist Tor Seidel (\*1964) in the United Arab Emirates. All artworks – specifically produced for the exhibition – are born out of a sense that realities are shifting in a time of utmost uncertainty: the recent, ongoing global COVID-19 pandemic. They address how perceptions shift in a time of existential crisis, how our awareness is challenged, certainties are crushed, global patterns of economy and mobility deaccelerate, and social interaction is put to the test. COVID-19 marks a turning point for the global community, having affected each and every one of us, while the future is still unknown. Thus, Tor Seidel takes the viewer on a journey with an open-ended narrative.
