Price	£12.99

- Original concept focused on the value of collaboration in innovation
- Ten groundbreaking inventions presented through engaging storytelling
- Accessible science communication enriched with compelling narratives
- Illustrations by the winner of the 2021 Andersen Prize
- Universal theme with strong international potential

Unity Is Strength tells the story of ten of humanity's most important inventions from an original perspective: collaboration. Through accessible language, lively illustrations, and engaging storytelling, the book demonstrates that great innovations are rarely the result of the genius of a single inventor, but rather the outcome of the contributions of scientists, researchers, and innovators from different eras. An illustrated book that combines science communication, history, and comics to introduce young readers to the value of teamwork and shared progress.

Ages 8 plus.

Max Temporelli is a physicist involved in the dissemination of scientific, technological and innovation culture for over twenty-five years. Temporelli has authored several books; presented on numerous television programs; been featured on TedTalks; and launched the podcast F**ing Genius*. He received the "Federico Faggin Innovation Award" in 2016. **Tea Orsi** is a screenwriter of animated series and author of comics, books, and magazines for children.
