Wild Comfort

Contemporary Homes in the Wilderness

Introduction by Jim Olson

Edited by Images Publishing

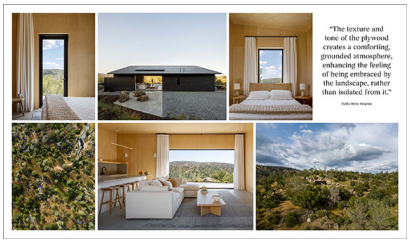

ISBN	9781923094109
Publisher	Images Publishing
Binding	Hardback
Territory	World
Size	267 mm x 230 mm
Pages	256 Pages
Illustrations	240 color
Price	£40.00

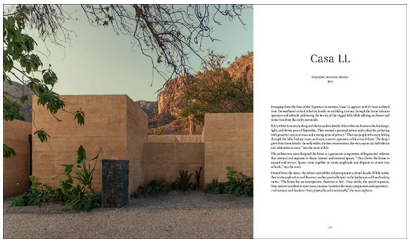

- The curated selection features thirty architecturally designed homes that are integrated beautifully into the wilderness. Each residence is designed for modern living in a remote, rugged location, where residents can relax with family and friends, and feel protected within the natural environment
- Wild settings include archipelagos, coastal dunes, deserts, forests, jungles, lakes, islands, and alpine regions around the world: Argentina, Australia, Brazil, Canada, Costa Rica, Latvia, Mexico, and the United States
- Each residence is illustrated with stunning colour photography that showcases the contemporary architecture, wild landscape, and beautifully designed interior that frames and highlights the natural surroundings
- Engaging narratives takes readers through the design of the house—how the architecture and interiors respond to the context, climate, and client brief; how they forge a deep connection with the natural environment; the environmental considerations of their design and construction—and include quotes from interviews with the architects and designers
- The introduction is by Jim Olson, FAIA, cofounder of Olson Kundig, and designer of featured project Camp House
- The book has a contemporary and tactile feel, with the pages printed on uncoated paper. The premium cloth cover features a yarn-dyed fabric, woven with different colored yarns, and has a tipped-in image of High Desert House.

"'Wild Comfort' is a coffee-table tome that's designed to give you upscale cabin envy." **Wallpaper**

Wild Comfort: Contemporary Homes in the Wilderness showcases thirty exceptional residences in some of the world's most breathtaking and unspoiled natural landscapes. Designed by leading architects, the houses range from minimalist cabins to luxury residences, each offering a place of refuge within the vast wilderness. Perched on rocky archipelagos, enshrouded in dense forests, and nestled in sun-scorched deserts, these homes are exposed to the elements. Yet each is sensitively designed to blend with the environment and withstand their unique conditions. Their warm and inviting interiors offer comfort and protection while immersing residents in the surrounding wonders. *Wild Comfort* celebrates architecture in harmony with nature. By fostering a dialogue between the tamed and untamed, between comfort and wilderness, it illuminates how thoughtful design can empower us to engage more deeply with the natural world.
