Size	272 mm x 220 mm
Pages	240 Pages
Name of series	Sommelier Series
Price	£25.00

- For wine lovers, aspiring sommeliers, or those who just want to know more about wine, this book provides professional-level answers and information
- Includes a glossary of the most important terms in the field of enology

This book is an extraordinary journey into the universe of wine, a journey of images and words that follows the history of a noble product. Enhanced by the photographs of Fabio Petroni, a master of still-life shots, this book reveals all the facets of wine: its ancient origins, the migration of historic grapevines, the phases of wine production (grape cultivation and harvesting, winemaking, aging and conservation), the principles of wine tasting, and the presentation of the principal wines and winemaking areas on a world level. An important section of the book provides 40 in-depth descriptions of the world's most prestigious wines–their origin, the organoleptic characteristics, and the best pairings of varietals with certain dishes. ***Wine Sommelier*** also illustrates the secrets of cellar management and storage, the rules regarding serving temperature and decanting, and how to read the label and select the right bottle.

Jacopo Cossater attended the University of Perugia and continued his studies at the Associazione Italiana Sommelier. After living in Milan and Stockholm, he returned to Umbria where he still lives and works. He writes for the *I Vini d'Italia* wine guide, published by l'Espresso, and contributes to wine blogs. Photographer **Fabio Petroni** specialises in portraits and still lifes, and has worked with some of the best-known professionals in the field. His numerous titles with White Star include *Horses: Master Portraits, Cocktails, Roses, Chili Pepper, Orchids, Tea Sommelier, Beer Sommelier,* and *Bonsai*.
