<b>Price</b>	£108.00

Housing of exceptional quality has been developed in the greater Zurich area since the mid-1990s. Public funding, the high standard of the competition culture and a vibrant architectural scene has resulted in a rich field of experimentation for good residential architecture. This volume on Zurich housing construction is an anthology of over 100 individual buildings, ensembles and settlements developed over a period of 20 years. It is an impressive representation of an intense, blossoming housing development culture that has also attracted international attention. Text in English and German.
