"Golf, more than any other sport, is inextricably tied to the landscape. Mother Nature herself could be considered a golfer's opponent; her rolling hills, sea breezes, and atmospheric pressure challenge all who face her. This is why golf courses are found in some of the world's most scenic locations." — author Stefanie Waldek

This book is a gift for every golfer – expert or novice – who dreams of traveling the world to the most beautiful golf courses. Even non-golfers will enjoy this collection of exceptional courses across the globe. Whereas the original ***150 Golf Courses You Need to Visit Before You Die*** book fits into any golf bag, this updated version is an eye-catching book suited for any coffee table or desk. From the luxurious cover to the decorative world map poster on which you can flag your top courses with the supplied set of sticker tags, this book is a true collector's item. Picking 150 top courses was no easy task. Author Stefanie Waldek carefully selected and described an array of courses that can be found along coastlines, in the mountains, in deserts, and along lakes. All accessible to and playable by the public.
