Pages	192 Pages
Illustrations	100 color
Price	$19.95

- A lively, illuminating approach to ancient history that doubles as a usable field guide for visiting the sites yourself

In this increasingly globalized, modernized, interconnected world, what can we learn from the first temples and burial sites built by our ancestors? This handbook brings some of the muddier, forgotten aspects of our shared history to life, offering a compelling insight into the origins of British cultural identity and a reminder of our deep-rooted connection to the earth.

Tom Howells is the author of *An Opinionated Guide to Weird London* and *An Opinionated Guide to Wine London.* He's happiest when wandering the Neolithic barrows and stones of the Isle of Wight, and once got locked in Carisbrooke Castle.
