Binding	Paperback / softback
Territory	USA & Canada
Size	6.5 in x 9.45 in
Pages	256 Pages
Illustrations	270 color, 36 b&w
Price	$90.00

- Ayşe Erkmen is one of Turkey's most internationally recognized contemporary artists, known for her innovative public installations and conceptual rigor
- ***Undone*** explores unrealized works of Ayşe Erkmen, as a rarely documented yet conceptually rich area of artistic practice—offering fresh insight into the creative process beyond physical outcomes
- An extraordinary book by the artist, contributing to global conversations on the definition of public art, artistic intention, and the value of process over product
- ***Undone*** appeals to artists, curators, students, theorists, and those interested in contemporary art, public art, and unrealized architectural or spatial projects

Undone explores 52 unrealised projects by Ayşe Erkmen, offering a rare glimpse into the conceptual force of works that remained unbuilt. Often conceived for competitions or public contexts, these projects—halted by spatial, political, or logistical constraints—reveal Erkmen's artistic depth through sketches, renderings, and notes. Rather than viewing these ideas as failures, the book highlights their significance as powerful, stand-alone conceptual works. With texts by Friedrich Meschede and Cem İleri,***Undone*** reflects on the meaning of realisation in contemporary art, challenging the notion that only completed works define an artist's legacy. Erkmen emerges not only as an installation artist but as a thinker who engages deeply with space, form, and society. Celebrating intention and imagination, ***Undone*** presents unrealised art as fertile ground for rethinking public space and possibility.
