Founded in 1875 **Eijffinger** has become an internationally operating converter in wallcoverings and fabrics. Eijffinger started trading in The Hague where interior products such as wallpaper and trimmings were delivered to the upper class. Soon the combination of unique wallpaper designs, reliable service, exceptional quality and broad distribution in Holland resulted into an impressive market share. During the last 135 years Eijffinger has survived world wars, various economic crises and the rise of do-it-yourself markets. Throughout, Eijffinger has continuously developed exclusive and surprising collections which provide a distinct and characteristic interior decoration for each individual. In Eijffinger's own creative studio the best industrial designers develop new wallpaper and fabric collections. Therefore, Eijffinger is leader in the world of interior decor. Eijffinger's creativity and innovation in design, colour and materials has been a major strength, so its products are now available in more than 90 countries.
