Pages	200 Pages
Price	$75.00

- Well known in the Hamptons

Bloom: The Luminous Gardens of Frederico Azevedo presents the accomplished work of Frederico Azevedo – the Brazilian landscape designer who has established himself as the leading gardener of the Hamptons. With stunning projects all over Long Island, Azevedo's work carries an emphasis on flowers which he uses to 'lure the eye through the flow of the design'. His signature curving, floral borders are the hallmark of an Azevedo garden. He also often creates multi-dimensional vistas using layers of flowers, trees, grasses, shrubs, and hedges for a dramatic effect. The results of his impeccable designs are soft and romantic, but always sophisticated, well executed, and most importantly, adaptable to whatever its environment may bring. Discover the luminous world of Frederico Azevedo and his dazzling gardens. Contents: Introduction; Casa Meu; Vista; Bloom; Green; Border; Tree; Stone; Water; More.

Frederico Azevedo was born in Porto Alegre, Rio Grande do Sul, Brazil in 1962, and studied landscape design in Brazil, England, and the United States. Azevedo founded Unlimited Earth Care, Inc. in 1993, to create beautiful, sustainable landscapes using native or well-adapted plants. He is a member of the Association of Professional Landscape Designers, the American Horticultural Society, and the horticultural Alliance of the Hamptons. Azevedo divides his time between the Hamptons, New York City, Los Angeles and Miami, and travels abroad frequently. For over two decades, Azevedo's award-winning, curated and holistic approach to landscape design has been recognized nationally and internationally in both architectural and landscaping publications. Unlimited Earth Care (www.unlimitedearthcare.com), a garden concept store at 2249 Scuttle Hole Road in Bridgehampton, New York, has become a destination for cutting-edge landscape design and accessories.
