- New ideas for using your Lego bricks
- Ideal for beginners as well as skilled modelers
- Another book in the successful *Lego Builders* book series - more than 80,000 copies sold within this series

As the ultimate powerful construction toy, LEGO® offers endless possibilities – just give your imagination free reign! In order to assist you in this, our authors are revealing a wide range of construction techniques, also using various new bricks which are available now. Their new tips and tricks are all clearly displayed in easy-to-grasp step-by-step instructions for new and individual models to be created, whether houses, cars, spaceships, figures, or even small accessories. The authors even explain how to integrate LEGO® electric motors, disclosing new prospects for your own personal LEGO® masterpiece!

**Joachim Klang** and **Uwe Kurth** are LEGO® fans since their childhood days, all well-known within the community for their real artistic and experimental use of the colorful bricks.
