- Featuring sixty-six design projects themed over 4 chapters - conflict & society, conflict & nature, conflict & conflict, conflict & economy

*Conflict & Design* offers an investigation into the social relevance of design. It asks pertinent questions relating to its impact, its role and responsibility within society. Presenting a diverse range of concepts, projects, objects, processes and new developments within the contemporary design sector, such as user-centered, social, participation, process, sustainable and ethical design, to explore themes and provide new understanding. Text in English and Dutch.

**Johan Valcke** is head of *Design Vlaanderen* (Design Flanders). **Kurt Vanbelleghem** works for the Triennial of Design. **Virginia Tassinari** is the founder of *DESIS Lab*, oriented towards design for innovation and sustainability.
