Price	\$70.00

- This is the Architectural Manifest of Luc Binst. It celebrates and showcases 10 years of Crepain Binst Architecture in Antwerp, featuring houses, public spaces, objects, etc.

Crepain Binst Architecture celebrates its tenth birthday with an atypical but impressive book that's an overview of the last decade. It's a mission statement for the future – by the agency but also by the architecture itself. Everything is architecture. 24/7, discipline determines our lives. That's the message Luc Binst, the CEO of Crepain Binst Architecture, wants to share with the world, with *Crepain Binst Architecture X05 24/24*. In 2005, he started his own agency, together with Jo Crepain. Ten years and as many as 550 (!) projects later, Luc looks back and ahead with a 'state of the union' of architecture. He focuses on themes such as durability and interdisciplinarity. Text in English and Dutch. Also available: *Crepain Binst* ISBN 9789020965315

Luc Binst is CEO of Crepain Binst Architecture. With his agency, he has received numerous awards, including the prestigious 'Lensvelt de Architect Interieurprijs 2006', for the design of his own home in Humbeek (Belgium).
