Diamonds tell stories that are captivating and timeless. On the one hand, they are just stones, pieces of pure carbon with optical properties that make them glitter and sparkle like stars. On the other, they are mystical entities hypnotically drawing the viewer into a time machine as it were, wherein a cinematic montage of their journey unfolds. *Diamonds Across Time* presents a sweeping overview of diamonds across time and space, featuring ten essays by world-renowned scholars in love the stone. Here, these authors present new discoveries; explore extraordinary collections; investigate histories, science, and trade; the nature of diamonds; legendary gems, jewelry collections, and great designers. Above all, they tell the human stories that underpin the adoration of diamonds.

Diamonds Across Time is a richly illustrated publication with high-quality images of gems and jewels, archival documents, rare drawings, and fabulous photographs. The volume places diamonds in the context of the time in which they were discovered, and on the political, social, and cultural stage on which their histories were etched. In a rapidly changing world, diamonds are eternal. They were created by nature and grew in the womb of the earth. They tell stories, and they record history. With this book, diamonds will finally have their own storytellers.

The book was compiled and edited by the World Diamond Museum's chief curator and world-renowned jewelry expert Dr. Usha R Balakrishnan. She and nine other distinguished authors wrote ten monographs written in the order in appearance: Introduction; The Nizam Diamond: Bala Koh-i-Noor, in the Sacred Trust of the Nizam of Hyderabad – Usha R.
