Photographer Serge Anton has been traveling the world for over 30 years. ***Emotions*** collects the 'character heads' that he photographed during his countless trips to Africa and Asia. Since the success of his *Faces* book he has made many more and has added these in this updated edition. Anton's portraits tell stories without words. They reveal recognition of exotic faces from distant cultures. The nuances in their expressive looks, the light that shines through the monochrome black and white images, the wrinkles that seem to represent lives. Serge Anton's portraits decorate many modern bohemian restaurants and hotels from Brussels to Marrakesh.

Text in English and French.

Since 1988, **Serge Anton** has been working for various international magazines such as *Architectural Digest, Elle Décoration, Marie Claire Maison, The World of Interiors, Casa Vogue, IDEAT.*
