- This book offers 'bridal ideas' to florists and is an inspiration for anyone who's soon to be married and wants to have a flourishing party

After having finished training in painting, ceramics and sculpture, Moniek Vanden Berghe changed her focus to floral art. Her style is contemporary-modern. One of her main specialities is bridal work. With an eye for stunning detail, she designs, with great accuracy, bridal bouquets, floral purses, corsages, hair claps and tiaras… She also decorates the bridal table, the cars, the church and the bridesmaids in an elegant and harmonious way. This book offers 'bridal ideas' to florists and is an inspiration for anyone who's soon to be married and wants to have a flourishing party. This is an excellent addition to Moniek's first bestseller on the theme of love and marriage.

Text in English and Dutch.
