- High-end photobook and travel guide in one
- An addition to the popular *Follow the Coast* series
- With famous hotspots like Saint-Tropez and Cadaqués and hidden gems in lesser-known regions

Follow the Coast – from Gibraltar to Monaco guides you along the Mediterranean coast, from Gibraltar to Monaco. This visual travel guide explores the Spanish and French coastlines, with countless charming beaches, little coves, sun-dotted villages, and hidden gems. It showcases the well-known beauty of the Costa Brava and the Côte d'Azur, with famous hotspots such as Cadaqués and Saint-Tropez, while also unveiling hidden beauty in lesser-known regions. The book features high-end nature photography, but is also a guide that can be your companion on a road trip or beach holiday. And last but not least, it tells the remarkable story of the Follow the Coast project, in which we run the entire European coastline with a collective of brave runners who cover 100 km a day.

The authors **Camille Liebaert** and **Charles Van Haverbeke**, together have published five books so far, all travel and photography books.
