Few architectural works have moved us – both emotionally and intellectually – as deeply as Frank Lloyd Wright's*Fallingwater*. Nestled in the mountains of southwestern Pennsylvania, this weekend retreat was designed for the Kaufmann family of Pittsburgh. Even 90 years after its construction, the house continues to captivate visitors. Fallingwater stands as as a true work of art – a harmonious fusion of modern innovation, creative vision, and the natural world. ***Frank Lloyd Wright's Fallingwater Coloring Book*** gives the observer an opportunity to learn more about the site's story history while engaging with the structures and rhythms of Lloyd's architecture through imaginative color.
