- Features Lausanne architects Eric Frei and Kaveh Rezakhanlou and their exceptional school facility in Chermignon, Lower Valais

In 2010, the two Lausanne architects Eric Frei and Kaveh Rezakhanlou produced an exceptional school facility in Chermignon, Lower Valais. Like a Greek temple, it has the power to combine the landscape, topography, urban morphology and building type. The architects have also designed further projects with great architectural qualities.

Text in English and German.
