Price	\$54.00

- With more than 120 Hi-Fi venues launched since 2020, *Hi-Fi Horizons* is the very first visual survey of the movement
- A 256-page, 255 x 215mm., hardback with spot-UV jacket showcases 200 vivid, venue-supplied photographs

Hi-Fi Horizons is the definitive visual tour of the fast growing listening bar movement. Spaces that trade thumping dance floors for velvet seats, sculpted speakers and reverent communal listening. From Tokyo's historic jazz kissa to Dante's Hi Fi in Miami, Zurich's Kasheme, Honeycomb Hi Fi, Barcelona's Curtis and Mexico City's Café de Nadie, it gathers photographs of glowing turntables and rapt audiences. Curated and narrated by London DJ and tastemaker Killian "Don Grizz" Radtke, it traces vinyl focused sessions and intimate rooms that fuse design, cocktails and hospitality, giving people a reason to leave the house.

Perfect for readers of *Dust & Grooves*, **Hi-Fi Horizons** lists the curtain on the curators, DJs and designers redefining nightlife. No longer the preserve of "audiophiles," these Hi-Fi havens lure diners, crate diggers and night owls alike, delivering club quality sound without the crush. Featuring 200 colour images, venue spotlights and insider commentary, it invites readers to slow down and rediscover music at its best.

Kilian "Don Grizz" Radtke, is a London-based record collector and hi-fi culture curator whose 25-year career began after relocating from his native Germany in the early 2000s. A founding member of the improv night Open Sauce—which hosted artists from Ninja Tune, Big Dada and Wichita Recordings—he became a resident at pioneering listening venue Spiritland King's Cross in 2019 and has since graced sister rooms at Spiritland Royal Festival Hall, Brilliant Corners and Behind This Wall, as well as Curtis (Barcelona), RIAA (Hamburg) and H/earth (Amsterdam). His eclectic, vinyl-only sets span jazz, funk, dub and global grooves and can be heard on Run Dem Radio, Islington Radio, Music Box Radio, Voices Radio and Amsterdam's Radio Salto. Now, **Hi-Fi Horizons**, Radtke channels decades of crate digging and event building into a definitive visual chronicle of the worldwide Hi-Fi listening bar explosion.
