- Includes masks and sculptures from Africa, Asia, and Oceania

This book was published on the occasion of the exhibition *HYBRIDS Composite creatures from fables, myths and legends* from 9 June 2024 – 17 November 2024 in cultuurhuis / Art Centre de Warande, Turnhout – België/Belgium.

Fantastic creatures from myths, sagas and legends are often hybrids, composed of different, often very varied animals. Frequently, they also appear to be a mixture of humans and animals. Such representations and descriptions of hybrid creatures occur in all cultures around the world and have existed since ancient times. This publication reads like a wondrous journey into a grand Wunderkammer.

Text in English and Dutch.

Glenn Geerinck is curator at De Warande in Turnhout, Belgium. **Tom Liekens** is a contemporary painter and print maker, collector and curator, living and working in Belgium.
