Pages 64 Pages

Illustrations 25 color, 36 b&w

Name of series Anthologie
Price \$25.50

- Fully illustrated with 25 images and 36 plans
- With an article by Alia Bengana

Founded in 2010 in Lausanne, the practice of Valentin Kunik and Guillaume de Morsier is shaped by its context-related projects, which are often implemented in experimental collaboration with engineers, photographers, philosophers and scenographers. The resulting spaces interact with their environment. For example, the Le Pont residential building is completely made of wood and based on an innovative construction system.

Text in English and German.
