- Two architects, Jeanne Della Casa and Sylvie Pfaehler, are working on a remarkable oeuvre in Lausanne. This book explores some of their greatest creations to date

Two architects, Jeanne Della Casa and Sylvie Pfaehler, together with their new partners Michael Perret and Lucile Fonta-Rak, are working on a remarkable oeuvre in Lausanne. In the midst of an urban garden and an ensemble of housing, three timber residential developments have their own poetic radiance. The architects' award-winning works include clear tectonically structured residential buildings in Lausanne and the Lavaux region. Text in English and German.
