Founded in 2003 by Laurent Vuilleumier and Paul Humbert, the architectural practice LVPH (Pampigny/Fribourg) primarily works on projects in Western Switzerland. Its tasks range from an autonomous residential building in Treyvaux supported by 14 columns, to larger projects such as the monolith of a sports hall in Geneva with a colorful anodized, expanded steel façade. All of the practice's works have a poetic character expressed in reduced, radical architecture.

Text in English, German and French.
