It is not an exaggeration to say that today we live in an age of unprecedented sexual freedom. Far from over, the sexual revolution seems on the contrary to have gained a new momentum. Globalized and digitalized, it is spreading its gospel like wildfire. The objects and their creators that feature in *Made for Love*, reflect this new evolution and its corresponding styles and attitudes. Some names of designers as well as brands will be surprisingly familiar. Sensual pleasure objects, furniture, varying home accessories – they all have a naughty spirit in common, combined with quality, design, a certain flair, and sometime ingenious engineering. Avoiding the trashy in favour of the classy, *Made for Love* is a treat for anyone wanting to indulge in a sensual experience. Includes texts by famous Belgian erotic writer Amélie O.
