<b>Price</b>	\$80.00

**The three** one-day conferences from which the papers in this title are taken were jointly hosted by Paintings Group of the Institute of Conservation (ICON) and the British Association of Painting Conservators-Restorers (BAPCR) and held at the Courtauld Institute in London in 2007. The conferences explored egg tempera retouching, resin retouching and retouching complex surfaces. The papers in this volume discuss various approaches to retouching paintings and the challenges that they present to the conservator. They cover the history behind techniques used today and also the scientific basis of conservation and restoration techniques. **Contents:**

Section One: Egg Tempera Retouching Introduction, Rachel Turnbull The History of Egg Tempera as a Retouching Medium, Ann Massing The Composition and Chemistry of Eggs and Egg Tempera, Alan Phenix The Art of Tempera Retouching, Mary Kempski
