- An intimate publication dedicated to Narcissus Quagliata, one of the world's most important glass artists
- Beautifully illustrated monograph that combines glass art, drawings and poetry
- Text in English, Italian and Spanish

Narcissus Quagliata is considered one of the most significant contemporary artists in glass. He has defined a new pathway in this field by combining painting with light, and he is best known for his spectacular artworks in public spaces, which have drawn world-wide attention. These include *The Dome of Light: Wind, Fire*, and *Time in Kaohsiung*, Taiwan, the largest illuminated glass dome in the world. Contrasted with this, ***MUTANT*** is perhaps his quietest, most personal and most intimate book, in which, for the first time, readers will come to know the person behind the artist through his thoughts, poems, sketches and his latest artworks – an impressive exploration on the relationship between dreams, words and images.

Text in English, Italian and Spanish.
