Size	5 in x 7 in
Pages	208 Pages
Illustrations	125 color
Name of series	New Photography of the
Price	$22.95

This small, beautiful book showcases the best and most arresting modern photography of the dog. Bringing together bold projects by established and emerging photographers from around the world, the book moves beyond sentimentality to present images that are intimate, cinematic and quietly powerful. Playful, poignant and sometimes unexpected, these photographs reveal the many ways dogs exist alongside us — as companions, characters, confidants and constants. This is a fresh, modern portrait of our closest of animal friends.
