Price	$29.50

- Fully illustrated with 40 images and 20 plans

Pellacani & Romanens is a young architectural practice based in Geneva. Its work is characterized by sustainable spatial planning and the enhancement of architectural heritage. Specializing in the construction of apartment buildings and refurbishments, Pellacani & Romanens develops clear solutions that harmonize historical, cultural and ecological considerations. The Hôtel des Postes project in Geneva illustrates this approach, combining respect for cultural heritage with contemporary use.

Text in English and German.
