<b>Price</b>	\$190.00

- The Porsche-Carrera book for the sportscar's huge fanbase
- Development history and all technical data in a fact book
- The supercar – spectacularly staged by Stefan Bogner
- The whole small series of the Carrera GT in a large-format coffee-table book

Originally planned for motorsport, just a happy chance landed the Carrera GT on the road: its technical data speak for themselves. The V10 naturally aspirated engine was a masterpiece of Porsche designers, while the chassis got its finishing touches through the fine tuning by rally world champion Walter Röhrl.

This richly illustrated Porsche book presents the high-speed sportscar (top-speed 330 km/h) to the detail. A body of carbon-fibre-reinforced polymers, carbon-ceramic brakes, the pushrod suspension system: a lot of things distinguish the Porsche Carrera GT from other sportscars. The extra fact book compiles all information on this car – and with the Porsche coffee-table book in a fine box it makes for a brilliant gift for fans.

Immerse yourself in the fascinating history of the Porsche Carrera GT!

Text in English and German.
