- A postcard book with a good pinch of irony
- New, second edition with 10 new artworks and 5 additional postcards

Stef Mosebach describes themselves as a former horse girl and queer person. In this work ***Queer Horses***, Stef combines vintage horse postcards with codes and slang from the queer community. Sounds curious? It is!

The result is a postcard book with a good pinch of self-irony and a proper wink at the elitist habitus of both scenes. A declaration of love to queer culture — and horses!
