- A overview of the major residential projects by Birmingham, Alabama-based design company River Brook

Founded by Leigh and Kevin Misso, the firm has redefined the traditional design-build model into a far more ambitious and holistic philosophy of integration. Every project begins with a singular vision in which structure, interiors and everyday living are thoughtfully interwoven from the earliest sketch. This book welcomes readers into the intersection of craftsmanship and story. Each home is shaped as both a sanctuary and a narrative, a composition of beauty, balance, and belonging. River Brook's work lives in the delicate space where history and modernity meet, honoring the soul of the past through the artistry of the present. Above all the firm's vision is simple: to transform houses into homes where life unfolds with warmth, grace and purpose. The firm's philosophy, "Living with Legacy," reflects its commitment to creating homes that honor the past while shaping the present. Homes composed with enduring craftsmanship. Effortless proportion and beauty that feels both timeless and liveable. At the heart of ***Living with Legacy*** is the overarching theme: "Designing What Endures."

Leigh Misso is the creative vision behind River Brook Design & Construction. Under her creative leadership, River Brook has become internationally recognized for creating highly customized homes where architecture, interiors and construction work seamlessly together. The firm's projects have been featured in leading regional and national publications earning recognition for their distinctive character, thoughtful craftsmanship and timeless design. **Kevin Misso** leads the construction and operations side of River Brook Design & Construction, overseeing the execution of every project, from initial planning through to completion. Known for his attention to detail, commitment to craftsmanship and steady leadership. With a deep understanding of residential construction and a passion for creating exceptional homes, Kevin has built a reputation for delivering projects that balance quality, efficiency and enduring value. His expertise spans construction management, architectural coordination, scheduling, budgeting, and client experience.
