Pages	84 Pages
Illustrations	127 b&w
Name of series	De aedibus
Price	\$39.50

The architect Rolf Mühlethaler attracted attention in 1987 with his studio building for the artist Rolf Iseli. This book volume is a collection of some of the more recent buildings and projects, including the latest project: the extension of a school building in Leimbach, a strong yet simple response to the extremely complex parameters. Text in English and German.
