- Prolific printmaker Lucas Cranach's eloquent images of the *Passion* series, begun in 1509, are among his finest creations

The leading artist of the German Reformation, and close collaborator of Martin Luther, Lucas Cranach was one of the most influential and prolific printmakers of the northern Renaissance. His spare and eloquent images of the*Passion* series, begun in 1509, are among his finest creations; they have a drama and pathos that rival the work of his exact contemporary Dürer.
