With ***Signature Moments***, Mieke Van Herck Architects presents a book that is far more than a collection of completed projects. It is a refined reflection on an oeuvre that has helped shape traditional Belgian architecture for over 25 years. The book captures the essence of Mieke Van Herck's work: architecture in which light, proportion, and emotion come together in timeless harmony. ***Signature Moments*** offers an intimate glimpse into the creative process through 13 signature projects, and explores the subtle dialog between tradition and modernity. It is an invitation to slow down, to notice the silence, and to discover the quiet strength of simplicity — a tribute to homes that bring calm, embody beauty, and feel as though they have always stood exactly where they belong.
