The publication for the nineteenth Silver Triennial provides an exciting review of the current silver scene from across the globe. The competition is organized by the Society for Goldsmiths' Art in collaboration with the City of Hanau, which invited internationally renowned silversmiths and metal designers as well as emergent up-and-coming artists to participate in the competition. The diverse repertoire of silver everyday implements; such as tea-, water- and coffee pots, bowls, cutlery, candlesticks and jars, as well as abstract objects; is exemplary of twenty-first-century silversmithing. A top-class jury selected the award winners and exhibitors. This book accompanies exhibitions at the Deutsches Goldschmiedehaus Hanau, Germany, 27 October 2019 – 9 January 2020, followed by DIVA, Antwerp, Belgium Silberwarenmuseum Ott-Pausersche Fabrik, Schwäbisch Gmünd, Germany Wasserschloss Klaffenbach, Chemnitz, Germany. Text in English and German.
