- The first monograph of renowned architect and interior designer Thomas Griem
- A luxury hardback finished with natural linen and gold foil

The first monograph of renowned architect and interior designer Thomas Griem, featuring projects in London (5 projects), Hong Kong (2), Paris, Mallorca (3) and Ibiza. Thomas opened TG Studio in 2011 and this new book is a testament to the success of the studio's creativity and approach to architecture and interior design. Thomas Griem trained in London at the University of Westminster and at the Architectural Association. He has also made furniture and lights, and has always been fascinated by the making, designing and creating of not only buildings or interior spaces, but products. His work as an architect has been diverse, however he found that his passion lay in designing timeless beautiful homes. It has always been exceptionally important for Thomas to genuinely respond to the particular requirements of the client, the site and significantly the budget.
