- The world's most extraordinary garden offices from both top architects and those who built their own

Remote working is here to stay. More people than ever before are finding it's not just possible to work from home but much more productive, affordable and – as this book will show you – inspiring.

From visually arresting structures that transform the experience of working to plant-covered studios built in harmony with nature, discover just what can be built in a backyard. Why commute to an office when you can Work from Shed?
